

## Bitdeer Announces Acquisition of Desiweminer in an All-Stock Transaction

June 6, 2024

SINGAPORE, June 06, 2024 (GLOBE NEWSWIRE) -- Bitdeer Technologies Group (NASDAQ: BTDR) ("**Bitdeer**" or the "**Company**"), a world-leading technology company for blockchain and high-performance computing, today announced that it entered into a share purchase agreement (the "**Agreement**") with FreeChain Inc. ("**Desiweminer**"), a fabless crypto ASIC design company, on June 3, 2024 to acquire all of the issued and outstanding shares of Desiweminer for a consideration of 20 million Class A ordinary shares of the Company (the "**Bitdeer Shares**"). A portion of the Bitdeer Shares to be issued pursuant to the Agreement will vest in equal instalments over a period of five or seven years, subject to the terms and conditions therein. Additionally, 50% of the Bitdeer Shares issued to certain sellers under the Agreement cannot be transferred for a period of six months following the closing, and the remaining 50% of the Bitdeer Shares issued to such sellers cannot be transferred for a period of twelve months following the closing.

The strategic acquisition, which is subject to customary closing conditions, follows a rigorous ten-month due diligence period, during which Bitdeer thoroughly evaluated Desiweminer's technology, engineering team, and supply chain. Desiweminer's cutting-edge chip designs are highly complementary to those developed by Bitdeer and are ideally suited for advanced semiconductor processes at 4nm and below. With this acquisition, the Desiweminer team will join Bitdeer's ASIC design team in Singapore, further strengthening the Company's capabilities and accelerating its time to market. Products featuring integrated technologies are slated for imminent release.

"We are thrilled to welcome Desiweminer into the Bitdeer family. Desiweminer's remarkable achievements in ASIC design and their proven track record, with nearly 30,000 high-performance machines in the market, make them one of the top ASIC design groups in the world," said Linghui Kong, Chief Business Officer of Bitdeer. "Our ongoing and substantial investments into the ASIC business are a cornerstone of our strategy to drive innovation and excellence in the mining industry and deliver long-term value for our shareholders."

Mr. Kong continued, "Integrating these advanced technologies will enhance our existing product lineup and accelerate research and development of our next generation ASICs, which will push the boundaries of what's possible in ASIC technology and efficiency. Given our leadership team's track record in the Bitcoin industry, we are well-positioned to disrupt and capture share in the multi-billion-dollar ASIC market over the coming years."

### About Bitdeer Technologies Group

Bitdeer is a world-leading technology company for blockchain and high-performance computing. Bitdeer is committed to providing comprehensive computing solutions for its customers. The Company handles complex processes involved in computing such as equipment procurement, transport logistics, datacenter design and construction, equipment management, and daily operations. The Company also offers advanced cloud capabilities to customers with high demand for artificial intelligence. Headquartered in Singapore, Bitdeer has deployed datacenters in the United States, Norway, and Bhutan.
