Management Commentary

“In June, we increased our self-mining hashrate by 21% to 16.5 EH/s and we remain on track to reach 40 EH/s by the end of October 2025,” said Matt Kong, Chief Business Officer at Bitdeer. “For SEALMINER A3, the machine level testing is ongoing with all the test results meeting expectations and mass production is almost ready. Looking forward, we are also excited about our most ambitious chip yet, the SEAL04, and we’re building real momentum toward our long-term vision of being a leading global ASIC manufacturer.”

Mr. Kong continued, “In addition, we are honored to be included in the U.S. Russell Indexes, a significant milestone that reflects Bitdeer’s continued growth and execution as a leading technology company. We look forward to the increased visibility among institutional investors and improved trading liquidity that the Russell Indexes brings as we advance our advanced SEALMINER technology roadmap, rapidly scale our global Bitcoin mining operations and further diversify into HPC/AI.”
