Bitdeer Technologies Group Signs Colocation Lease Agreement for Tydal, Norway AI Data Center Site

SINGAPORE, June 29, 2026 (GLOBE NEWSWIRE) -- Bitdeer Technologies Group (NASDAQ: BTDR) (“Bitdeer” or the “Company”), a world-leading technology company for AI and Bitcoin mining infrastructure, today announced that its wholly-owned subsidiary, Tydal Data Center AS, has executed a colocation lease agreement (the “Lease”) for its Tydal, Norway AI data center site. The Lease has not yet become effective and remains subject to the satisfaction of certain conditions precedent beyond Bitdeer’s control, including the completion of certain external customer and supplier arrangements by the counterparty. There is no assurance that such conditions will be satisfied, or that the Lease will become effective.

“Signing this agreement marks an exceptional step in Bitdeer’s execution of its global AI infrastructure strategy,” said Haris Basit, Chief Strategy Officer of Bitdeer. “We look forward to sharing comprehensive details of this transaction, including terms and strategic context, once the Lease has become effective.”

Bitdeer intends to provide a public announcement, including details regarding the commercial terms and expected business impact of the Lease upon its effectiveness, which is expected within the next month.
